RE: Anaiv Capital

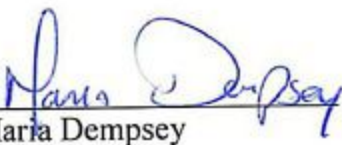

To Whom It May Concern:

Michael Doyle Engineering has worked directly with Anaiv Capital on a number of large capital projects. They have successfully completed these projects to a high standard and to programme.

We appreciated the cooperation with Anaiv investments specialists, their work ethic, attitude, experience and willingness to execute. They also delivered on their promises.

I am happy to recommend Anaiv Capital as a professional and competent investment company with a strong focus on cutting down risks through proven models. We would have no hesitation in working with Anaiv for future projects.

Yours sincerely,

Maria Dempsey
